SMD Stencil for self-tensioning frame system

Address

Contact Person

Description

Your Reference

Delivery Date

Shipment Standard Express

with perforation for self-tensioning frame system

Type of frame system

Fiducials cutting through engraving black filling

Layout Position Contour centered Layout centered like drawing

Surface Standard WE-Polish WE-Elektropolish

Legend Position  PCB side Squeegee side
 Text position readable from direction

Pad optimisation none selective over all
 reduce enlarge mm %
 with Radius mm

WE-Protect

Safety first. On request, WE-Protect is applied at no cost to self-tensioning frame systems (technical feasibility assumed)

Yes

Dimensions Width mm Height mm (max. 780 x 600 mm)

Material Thickness µm (100, 120, 130, 150, 180, 200, 250, 300 µm)

Pads Quantity
